

YOGESHKUMAR

React Native Developer | Cross-Platform Mobile Application Developer

syokesh081@gmail.com | +91 6374536593 | LinkedIn | Portfolio

Professional Summary

React Native Developer with 2 years of hands-on experience delivering production-grade cross-platform mobile applications in FinTech, Healthcare, and E-Commerce domains. Proficient in React Native, Redux Toolkit, TypeScript, Firebase, REST APIs, Agora SDK, and Socket.IO. Successfully published 5+ applications on Google Play Store and Apple App Store. Strong track record of integrating payment gateways, real-time features, and video calling in Agile team environments.

Technical Skills

- **Mobile Development:** React Native, TypeScript, JavaScript (ES6+), Redux Toolkit, React Query, Zustand, React Navigation, Reanimated, Gesture Handler, Deep Linking
- **Backend & APIs:** Node.js, Express.js, REST APIs, GraphQL, Axios, Firebase (Auth, Firestore, FCM, Crashlytics, Storage), Socket.IO, MongoDB
- **Payments & Maps:** Razorpay, Stripe, Google Maps SDK, Geolocation, Route Planning
- **Media & Calling:** Agora SDK, WebRTC, react-native-camera, Image Picker, PDF Generation
- **DevOps & Tools:** Git, GitHub, Fastlane, Android Studio, Xcode, Postman, Figma, VS Code, Jira
- **Deployment:** Google Play Console, Apple App Store Connect, TestFlight, Release Management

Professional Experience

React Native Developer (Full-time) | Codepluse Gen Private Limited (Feb 2026– Aug 2026)

- Engineered and shipped 3 production React Native applications (FinTech, E-Commerce, Delivery).
- Designed and implemented scalable, reusable, and responsive UI components based on Figma/UI/UX designs.
- Integrated REST APIs, Firebase services, and third-party SDKs, including payment gateways, push notifications, and Crashlytics.
- Developed key modules for E-Commerce, FinTech, and Delivery applications, including product management, checkout, wallet, loan application, notifications, and order tracking.
- Reduced notification delivery latency by implementing FCM with custom Android notification channels and notifee, achieving 99%+ delivery rate, Google Maps, authentication, and real-time data synchronization.
- Published and maintained production applications on the Google Play Store and managed release builds.
- Collaborated with backend developers, UI/UX designers, and QA teams to deliver high-quality applications while following clean architecture and coding standards.
- Diagnosed and resolved 20+ production crash reports using Firebase Crashlytics, improving app stability rating.

React Native Developer (Full-time) | Itboomi Innovations (Jan 2025 – Jan 2026)

- Developed and maintained Android and iOS mobile applications using React Native and JavaScript.
- Integrated REST APIs, Firebase services, and third-party libraries to implement application features.
- Implemented push notifications, Agora-based audio/video calling, and Google Maps integration.
- Built responsive mobile interfaces from Figma/UI/UX designs while ensuring cross-device compatibility.
- Published applications to Google Play Store and Apple App Store and provided post-release maintenance.
- Debugged production issues, optimized application performance, and collaborated with backend and QA teams.

React Native Developer Intern | Itboomi Innovations (Oct 2024 – Jan 2025)

- Contributed to development and bug fixing of mobile app features.
- Assisted in API integration and front-end module development.
- Implemented geolocation features in travel booking and vehicle booking apps (internal/demo projects).
- Gained end-to-end exposure to the mobile app lifecycle and owned workflows using Lark.

Key Projects (Published Apps)

Healthcare Application

React Native | Agora SDK | Firebase | Redux Toolkit | Socket.IO | FCM

Play Store | App Store

- Developed patient-facing app enabling doctor discovery, appointment booking, real-time chat, and HD audio/video consultations via Agora SDK
- Integrated FCM push notifications with 99% delivery rate for appointment reminders and consultation alerts
- Published on both Google Play Store and Apple App Store
- Additional Projects (Not Live) – Implemented geolocation with Google Maps, current location tracking, and booking flows for travel and vehicle booking applications.

Parking Management Application

React Native | Socket.IO | QR Scanner | Firebase | Redux Toolkit

Admin App | User App

- Built dual-app system (Admin + User) for digital parking ticket issuance, real-time slot tracking via Socket.IO, and employee role management
- Implemented QR code-based entry/exit system reducing manual check-in time ~70%

Education

- B.Sc. Computer Science | Shree Venkateshwara Arts and Science College (2020–2023) | CGPA: 6.9

Awards & Recognition

- Problem Solving Star Award – Company's 2nd Anniversary (2025).
